

## Guidelines for how to upload the Question cum Answer Booklet

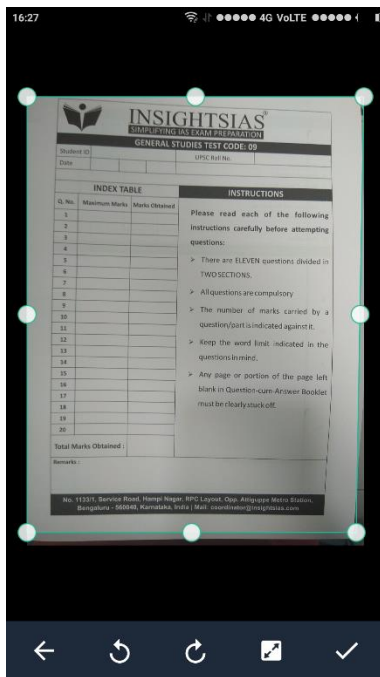

1. Open the CamScanner app, click on the camera image as shown in figure below

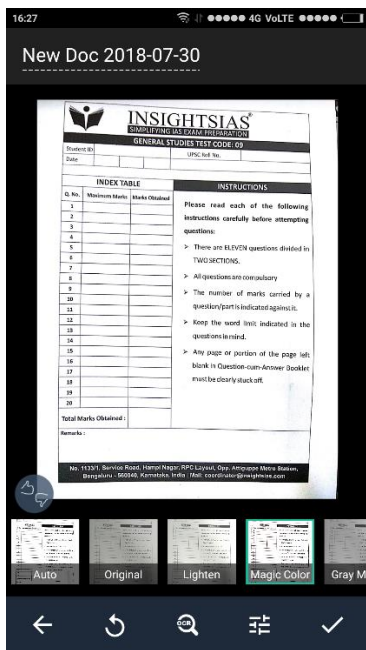

2. Put camera in Docs mode and also in a single mode shown as rectangular box with dot which is available at the right corner shown in figure below
3. CAUTION: Please don't put in batch mode

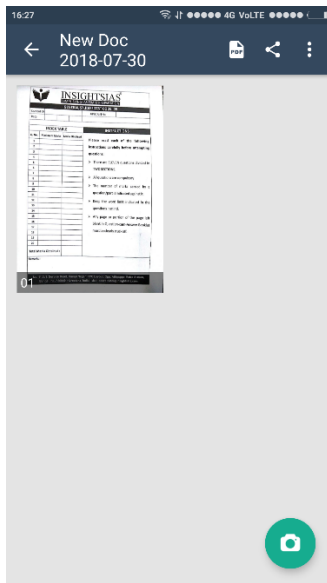

- When you put in single mode it asks for cropping ,so make a clear cropping then click right mark as shown below

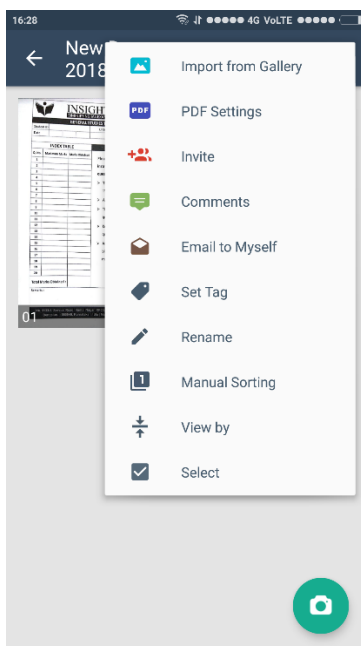

- Then go for magic colour feature, which enhances image quality then click a right mark for image saving option

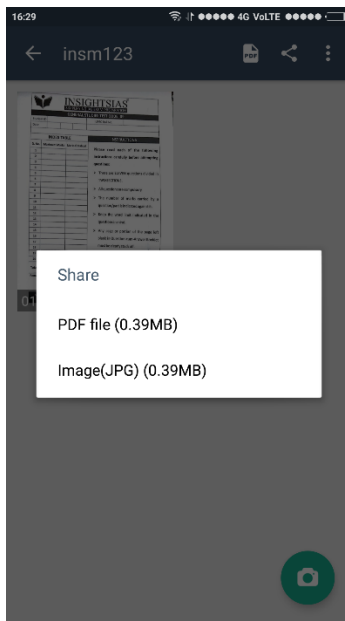

6. Then go on taking the pictures in the same document as shown below

7. Rename the document by your online student ID by clicking on rename option

8. Finally share the document in a PDF file by using share button to your mail Id.

9. Once you download the pdf file from your mail. The file is ready to upload for our website through your student login id
